CAREER OBJECTIVES

Driven by a passion for helping others showcase their skills online, I excel in front-end development and building strong client relationships. My projects have honed my collaboration skills, focusing on life skills like teamwork and communication. Web development introduced me to the creative industry, inspiring my entrepreneurial ventures.

PROJECT EXPERIENCE

Malayalam Parser

Feb 2024 - Present

- Analyze syntactic and semantic structures, addressing the scarcity of annotated datasets in Malayalam for NLP applications, aiding in the creation of high-quality datasets
- Rule based training the model on annotated data to capture Malayalam's linguistic nuances
- Promote linguistic diversity in NLP and encourage further research and innovation in Malayalam NLP

Alumni Website

Oct 2023 - Mar 2024

- Designed and developed a comprehensive website for a college alumni association, facilitating communication, networking, and information sharing among alumni
- Implemented user-friendly interfaces using HTML, CSS, and JavaScript, along with backend functionalities using Django, ensuring a seamless user experience across devices

Bank Management System

Nov 2023 - Dec 2023

- Deposit, withdrawal, transfer and comprehensive transaction history feature for tracking and reviewing financial activities
- Manager dashboard for efficient customer listing, customer detailing, and record creation, with the ability to delete customer accounts for data integrity and compliance

Hack Club Website

Jan 2023 - Feb 2023

- A dynamic website for a college club, integrating features such as event scheduling, team profiles, and interactive forums to enhance club engagement and communication
- Utilized front-end technologies like HTML, CSS, and JavaScript to create a user-friendly and responsive web platform

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Nov 2021 - Present

Rajagiri School of Engineering and Technology

Higher Secondary

Jun 2019 - Mar 2021

Christ Vidyanikethan
